PART ONE:
Under the following examples, circle whether the survey sample is biased or unbiased. Explain your answers.

1. Question to answer:
   What is your favorite sport?
   Sample is chosen from people attending a soccer game.
   
   BIASED  or  UNBIASED

2. Question to answer:
   What is your favorite soft drink?
   Sample is chosen by picking names out of a telephone book.
   
   BIASED  or  UNBIASED

3. Question to answer:
   Should more money be put into athletic programs or music programs at school?
   Sample is chosen from students in the band program.
   
   BIASED  or  UNBIASED
4. Question to answer:
   What is your favorite vacation destination?
   Sample is chosen by asking every student in the class.

   BIASED or UNBIASED

PART TWO:
Explain what you would do in the following situation:
If I wanted you to find the average height of people who attend this school, give
two ways that your sample for the survey might be selected. The first must be
an example of a biased sample and the second must be an example of an
unbiased sample. Explain your answers.
